The project is a new comprehensive space brand launched by Poly South China. Located in the super high-rise class A office building, which is different from the previous interior renovation in high-rise building. As a new space brand, Raise Space hopes to create a diversified shared office environment in the high-rise building and explore a new office social mode in the future. The space integrates office, business, entertainment and leisure arts, including a series of composite functions such as office, fitness club, yoga, conference, art display, leisure bar, road show and expansion.

The purpose of the design is to create a homogenization device as a space carrier, which can transform multi-functional and multi scene events into a new office place for social life. The installation reorganizes and connects the inner scenery and the outer city scenery, and different scenery creates a variety of spaces. During the day, the space is like a filter for external light, which is superimposed with the built-in scenery with the change of light and darkness; at night, the brightness of the internal humanized reflective lamp trough and the superposition of the scene of the lights in the external darkness make the space

fascinating. The illusion and colorful special negotiation rooms also bring a sense of pleasure to the space, and create a social place and brand space with diverse scenery.

本项目是华南保利推出的新型空间品牌, 项目位于超高层甲级写字楼内, 不同于以往高层办公室内项目, 作为新型的空间品牌, 设计团队希望在高层写字楼里打造一个多元化的共享办公环境, 探索未来新型办公社交模式。空间集办公、商务、娱乐、休闲、艺术于一体, 包括办公、健身俱乐部、瑜伽、会议、艺术展示、休闲酒吧、路演、拓展等一系列复合功能。

设计旨在创造一个匀质化装置作为空间载体, 将多功能、多场景的活动地点转化为一个新的社交生活办公场所。装置体重组与连接了内在风景与外部城市风景, 用不同的风景创造了多样空间。白天, 空间像外部光线的过滤器, 随光线的明暗变化与内置风景叠加; 夜晚, 内部人性化反光灯槽的通亮, 和外部黑暗中万家灯火景象的叠加, 相互渗透让空间变得迷幻, 彩色的特色洽谈室也为空间带来愉悦感, 各种叠合创造出多样风景的社交场所与品牌空间。
